The EPSON Ultraviolet Ink comes in a transparent ink configuration that allows for flawless printing on any surface. The volume of this ink is a massive 1000 ml, ensuring that you can print for a long time without the need for frequent refills. One of the unique selling points of this product is its excellent adhesion. This means that the ink adheres perfectly to any surface, making it ideal for printing on various materials such as paper, metal, plastic, and even glass. The UV ink dries quickly and is resistant to scratches and fading, ensuring that your prints last for a long time. The EPSON Ultraviolet Ink is perfect for businesses that require high-quality prints that are durable and long-lasting. This ink is ideal for printing outdoor banners, window displays, and vehicle wraps. The UV ink is resistant to fading caused by UV rays, making it an excellent choice for outdoor advertising. This UV ink is easy to use and can be used with any compatible EPSON printer. The transparent ink configuration ensures that the ink flows smoothly through the printhead, providing excellent print quality. This ink is also easy to maintain and clean, ensuring that your printer lasts for a long time. In conclusion, the EPSON Ultraviolet Ink is a must-have for any business that requires high-quality prints that are durable and long-lasting. This ink is easy to use, has excellent adhesion, and is resistant to fading caused by UV rays. The transparent ink configuration ensures that the ink flows smoothly through the printhead, providing excellent print quality.

Features:

Product Name: EPSON UV Ink
Adhesion: Excellent
Ink Configuration: Transparent
Chemical Resistance: Excellent
Scratch Resistance: High

Technical Parameters:

Product Name:	EPSON Ultraviolet Ink
Suitable Printhead:	I1600/ 3200/ Dx5/ Dx7/ Xp600/ Tx800
Printing Type:	Digital Printing
Scratch Resistance:	High
Adhesion:	Excellent
Ink Configuration:	Transparent
Volume:	1000 MI
Chemical Resistance:	Excellent

Applications:

The EPSON UV Ink product is formulated to provide excellent adhesion on various substrates, making it ideal for printing on different materials. The ink configuration is transparent, which means that it can be used for printing on transparent or semi-transparent substrates, such as plastic, glass, or acrylic. The ink has high scratch resistance, which ensures that the printed images remain intact even when exposed to rough handling or external elements.

This UV printing ink solution is compatible with several printhead models, including the I1600, 3200, Dx5, Dx7, Xp600, and Tx800. This feature makes it versatile and suitable for use in different types of printers. The EPSON UV Ink product has excellent chemical resistance, which means that the printed images are not affected by chemicals or solvents.

The EPSON Ultraviolet Ink product is ideal for various product application occasions and scenarios. It can be used in the printing of indoor/outdoor signage, banners, labels, and stickers. The ink is also suitable for printing on promotional items, such as keychains, mugs, and pens. Additionally, it can be used for printing on packaging materials, including boxes, bags, and pouches, to create unique and attractive designs.

In summary, the EPSON Ultraviolet Ink product is a high-quality UV printing ink solution that is versatile and suitable for various printing needs. It is formulated to provide excellent adhesion, scratch resistance, and chemical resistance, making it ideal for printing on different substrates. With its compatibility with several printhead models, customers can use it in different types of printers. The product's affordable price, quick delivery time, and excellent attributes make it a top choice for customers looking for a reliable and efficient UV printing ink solution.

Customization:

Looking for customized EPSON UV Printing Ink solution? Look no further than Tucai! Our UV Ink for EPSON is the ideal solution for your printing needs. Our product is sourced from China and offers excellent chemical resistance, high scratch resistance, and excellent adhesion, making it the perfect choice for your printing requirements.

Our EPSON UV Ink is suitable for printheads including I1600, 3200, Dx5, Dx7, Xp600, and Tx800. This high-quality ink comes in a volume of 1000 ml and is priced at just \$39. With a fast delivery time of just 7 days, you can be assured of timely delivery of your order.
